

Senior Farmer's Market Program

The Aging & Disability Resource Center provides outreach and application materials for the Senior Farmer's Market Program. This USDA-based program is income based and provides food vouchers to eligible seniors for the purchase of fresh fruits and vegetables from certified farmer's markets and farm stands.

The program operates from June 1 – October 31 with applications available in June. Vouchers are distributed at designated sites around the county and are on a first come, first served basis. The number of vouchers available varies on an annual basis, so applications are required every year. Please watch the newspaper and WRJC radio for dates and times each year.
